

Robert Hernández

UNIVERSITY STUDENT

ABOUT ME

Computer Engineering student focused on Frontend Development and automation. Skilled in building responsive web interfaces with React and JavaScript, managing relational databases with SQL, and collaborating using Git/GitHub. Highly motivated to grow as a Junior Developer and contribute to real-world projects.

Oaxaca, México

WORK EXPERIENCE

Frontend Development

Developed dynamic and responsive user interfaces using React and JavaScript, focusing on usability and maintainable code.

Process Automation

Design and implementation of efficient automated workflows utilizing n8n.

Data Management

Management of relational databases with SQL for optimized data storage and retrieval.

Version Control

Proficient use of Git and GitHub for repository management, version tracking, and collaborative coding.

EDUCATION

Universidad Tecnológica de la Mixteca

Computer Engineering | Oct 2023 - Present

Professional Certifications (Udemy)

- Git and GitHub: Professional version control and collaboration.
- Virtualization with VirtualBox: Environment and server configuration.

TECHNICAL SKILLS

Languages

- JavaScript
- Python
- HTML5
- CSS3

Frameworks/Libraries

- Next.js
- React

Automation

- n8n

DevOps Tools

- Docker
- Git/Github

Databases

- SQL (MySQL / PostgreSQL)

LANGUAGES

Spanish

Native.

English

Intermediate (reading & technical communication)
